

## ▶ GUIDE 6202 CPN

A cut-, puncture- and needle protecting glove made of soft synthetic leather for dexterity and a smooth grip. The CPN technology in the palm, over the fingertips and the back of the fingertips protects against needles and sharp objects. Designed especially for searches and similar situations where it is important to maintain a sense of touch even when there are risks of punctures and cuts. Discreet design in neutral black colour.

**Typical applications:** Police, customs, security guards and prison officers, when there are risks of cut-, puncture- and needle injuries.

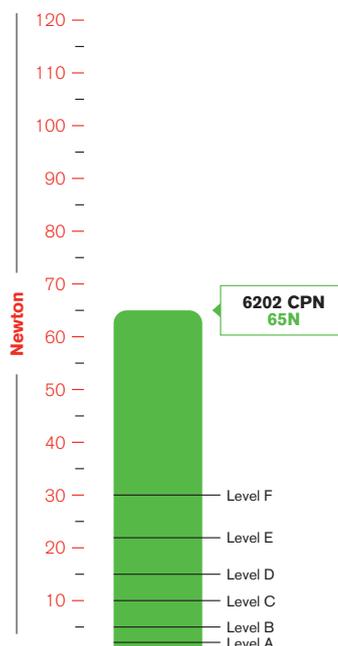

- 4 layers of protective mesh in the palm.
- 2 layers of protective mesh on the palmside of the fingers and over the fingertips.
- Soft synthetic palm
- Preshaped finger
- Sizes 6-13

### Blade cut resistance, EN 388:2016

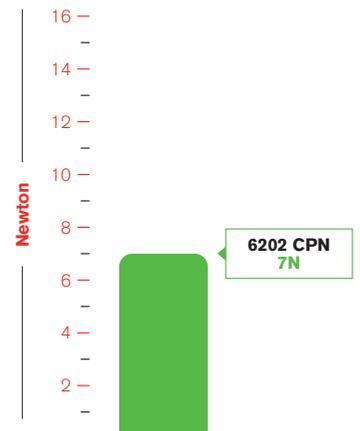

#### Palm protection

### Needle protection, ASTM F2878

#### 25 gauge hypodermic needle
