

## ▶ GUIDE 6203 CPN

A cut-, puncture- and needle protecting glove with soft leather in palm for an extraordinary grip. The CPN technology in the palm and over the fingertips protects from needles and sharp objects. The design is discrete and the glove is adapted for searching and similar situations where retained fingertip sensitivity is important, and where there is a significant risk for hand injury.

**Typical applications:** Police, customs, security guards and prison officers, when there are risks of cut-, puncture- and needle injuries.

- 4 layers of protective mesh in the palm.
- 2 layers of protective mesh on the palmside of the fingers and over the fingertips.
- Preshaped fingers
- Good grip
- Sizes 8-12
