

## ▶ GUIDE 6505 CPN

A cut-, puncture- and needle protecting glove in high quality goat leather with a soft hand feeling and a water repellent treatment. CPN-technology in palm and around the fingertips protects from needles and sharp objects. The glove offers extra shock absorption on the back, it has an extended cuff and discrete black design. The glove offers a unique combination of good dexterity, high comfort and maximum protection.

**Typical applications:** Police, military strike forces, ambulance crews and motorcycle police. Specially developed for use in tough environments with risk for impact- and cut injuries.

- 4 layers of protective mesh in the palm.
- 2 layers of protective mesh on the palmside of the fingers and over the fingertips.
- Extra long cuff
- Impact protection on knuckles and fingers
- Sizes 7-12
